

SWISS
BLOCKCHAIN
FEDERATION

A Public-Private-Partnership

Presentation. February 2020.

What is the Swiss Blockchain Federation?

The Swiss Blockchain Federation

-  Bringing together actors from the blockchain sector, business, science, society and politics
-  Point of contact for all questions and concerns concerning blockchain technology in Switzerland
-  Initiation of projects in the field of communication, education and knowledge transfer
-  Umbrella organisation for existing initiatives and associations
-  Financially supported by the State Secretariate of Education, Research and Innovation (SERI) and the Cantons of Tessin, Zug and Zurich

History

Formation

In December 2017 as a militia project under the patronage of federal councilors Johann N. Schneider-Ammann and Ueli Maurer

Launch

50 representatives of universities, Blockchain companies, industry, legal practices, cantonal government and federal government

Goal

Building bridges between the «Crypto Valley» and the federal authorities in Berne

Goals of the Swiss Blockchain Federation

1

Promoting and strengthening the attractiveness of Switzerland as a blockchain location

2

Commitment to competitive legal framework

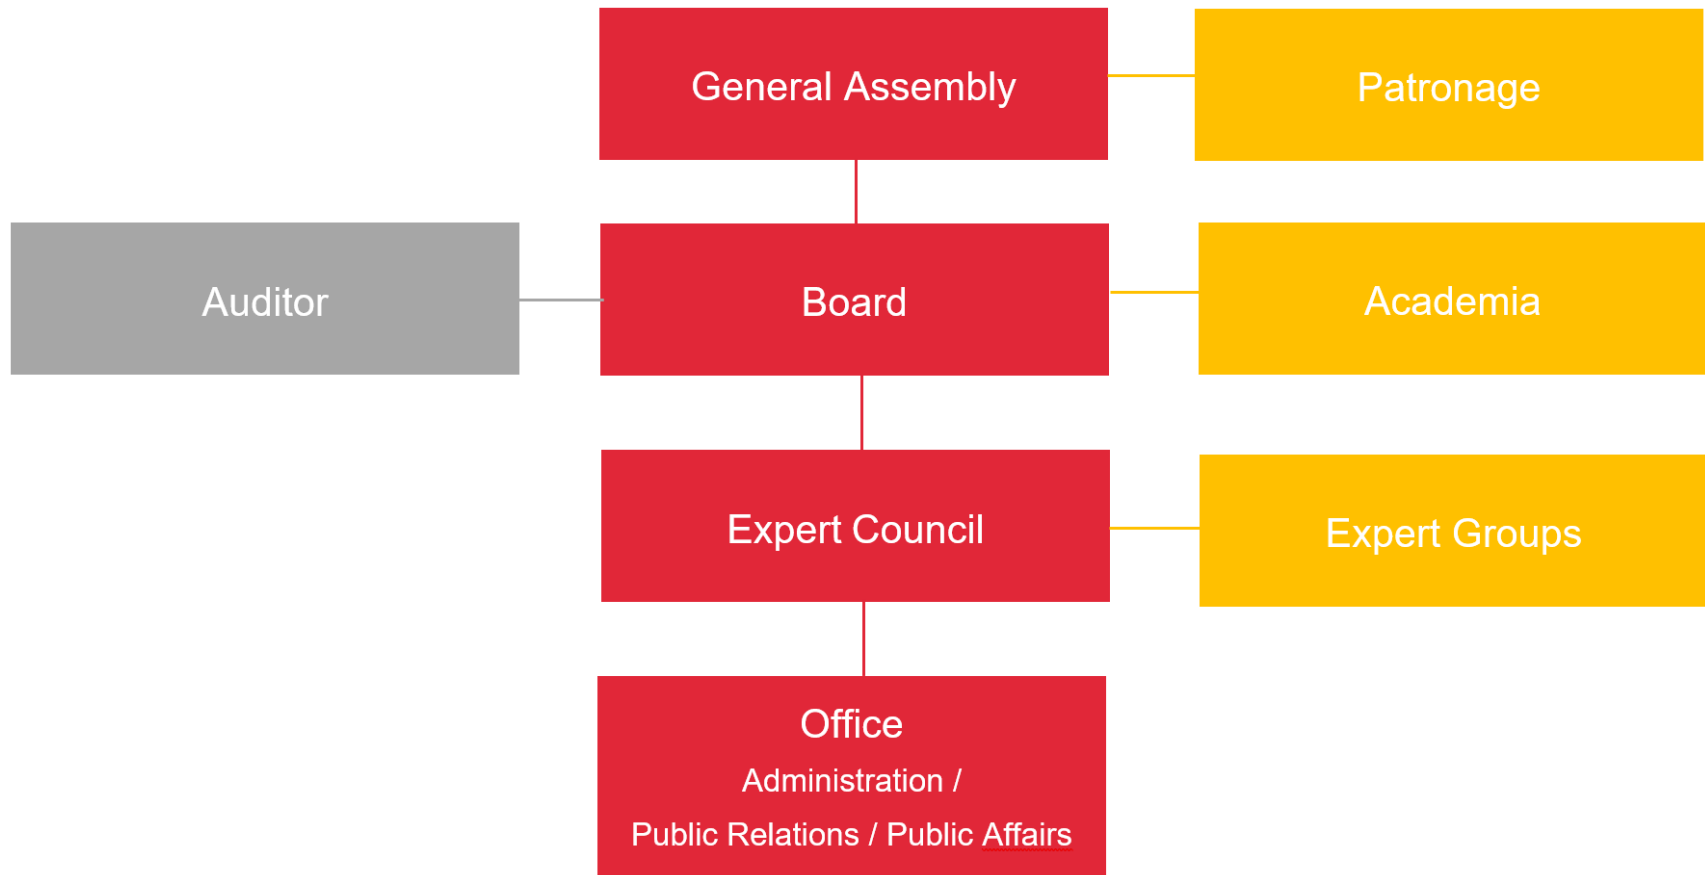

3

Formation of a diverse and innovative blockchain ecosystem
